5B. Insurance Claim - Zoho Creator Analytics Page

Aim:

To design and build a single internal "Insurance Claims Analytics" Page in Zoho Creator for the existing "Insurance Claim" application, demonstrating the correct usage of the Report and Chart elements of the Page Builder, so that the Claims Processing Team has one unified workspace to view, monitor, and analyse insurance claim data.

Page Elements Used

Page Element Type	Element Name
Report	All_Claim_List (List report with Claim Type and Claim Status filters)
Chart	ClaimType_Distribution_Chart (Pie chart)
Report	Claim_Status_Kanban (Kanban report)
Report	Claim_Activity_Timeline (Timeline report)
Report	Claimant_Location_Map (Map report)
Report	Incident_Date_Calender (Calendar report)

Page Layout (Section-wise)

- Section 1: Claim Data Overview
    - All_Claim_List (Report element) with Claim Type and Claim Status filters, showing Claim ID, Customer, Policy Number, Customer Email, Claim Date, Claim Type, Claim Amount and Claim Status (12 of 12 records)
- Section 2: Claim Analysis
    - ClaimType_Distribution_Chart (Chart element), a pie chart splitting claims into Health Claim and Life Claim
- Section 3: Processing Workspace
    - Claim_Status_Kanban (Report element) with columns Pending, Approved, Under Review, Rejected and Settled; each card shows the Claim ID and Claim Type
- Section 4: Time and Location Tracking
    - Claim_Activity_Timeline (Report element) in Week view showing claims 1 to 11 along the time axis
    - Claimant_Location_Map (Report element) with pins for claimants around Chennai and Bengaluru
- Section 5: Incident Analysis
    - Incident_Date_Calender (Report element) with Month, Week and Day views
- Note: All sections above are placed on the single page named Insurance_Claims_Analytics, which appears in the left navigation menu of the Insurance Claim1 application.

Screenshots:

1. Claim list report with filters, and the claim type pie chart

2. Claim type pie chart and the claim status Kanban board

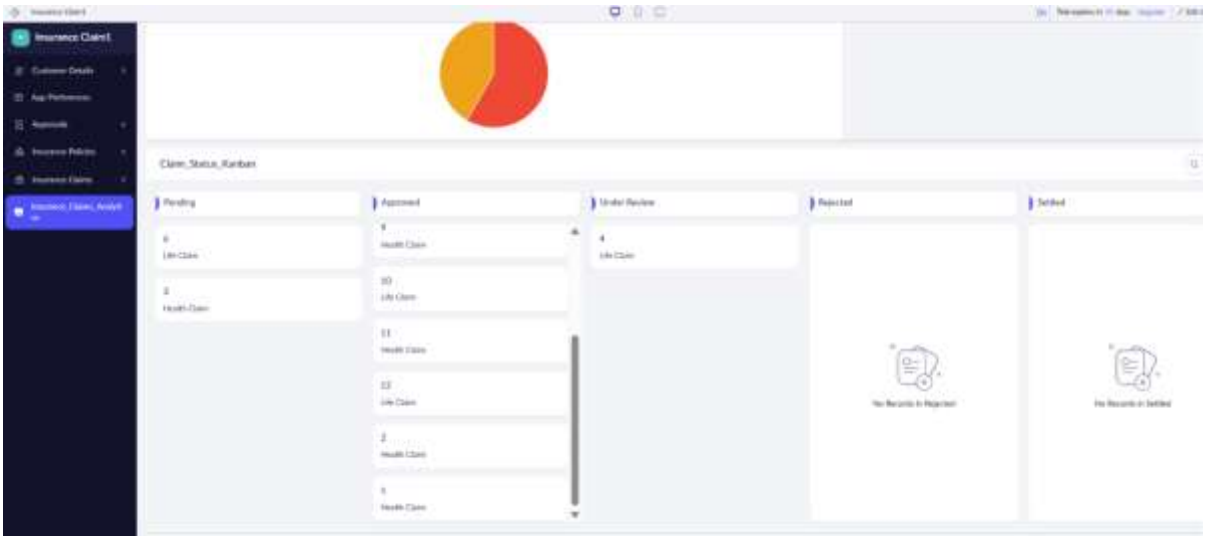

Fig 2: Pie chart and Claim_Status_Kanban report on the page

3. Claim timeline, claimant location map and incident date calendar

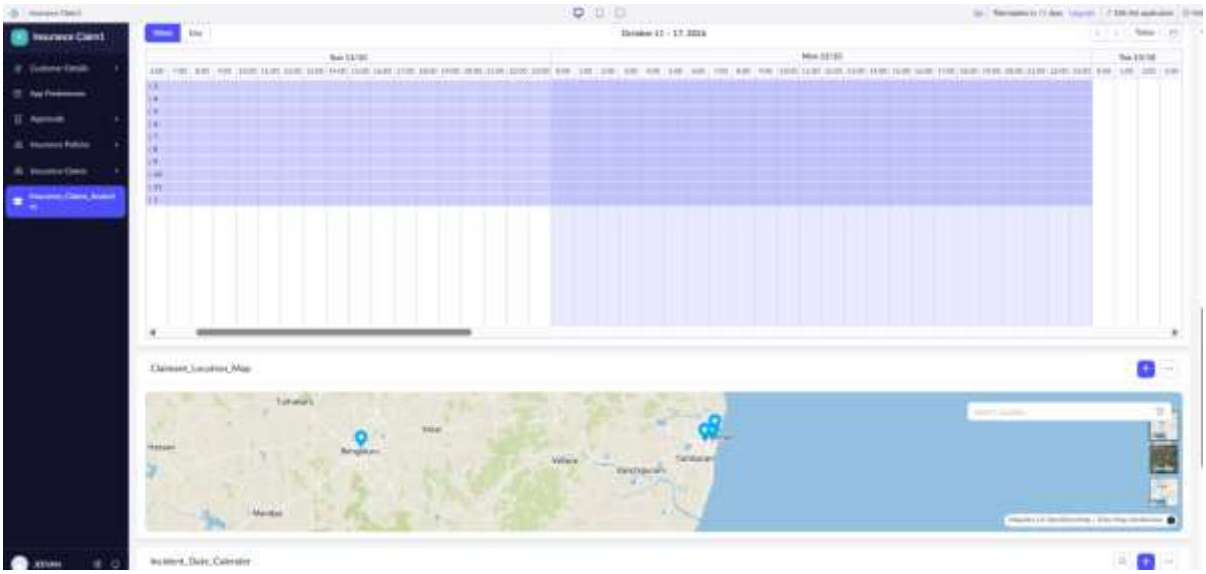

Fig 3: Timeline, Claimant_Location_Map and Incident_Date_Calender reports on the page

Result:

A single internal "Insurance Claims Analytics" Page in Zoho Creator for the existing Insurance Claim application is created, bringing the list, chart, Kanban, timeline, map and calendar views of claim data together in one workspace.
